Arantza Otegi received her B.A. in Computer Engineering (2006) and PhD in Computer Science (2012) by the University of the Basque Country. She is currently a postdoctoral researcher of the IXA natural language processing research group of the University of the Basque Country. She has been a member of that group since 2003, working mainly on the fields of information retrieval and lexical semantics. She has participated in several research projects, national projects (KNOW, KNOW2) as well as European projects (PATHS, LoClud, QTLeap, LIHLITH). She has been involved in the organization of several workshops in some of the international conferences like ACL and CLEF.
